SUBJECT.

Section from certain ryots holding land under Rampa channel in E.

W D 83—GPB—50,000—24-7-15

CHIEF SECY.'S DEPT.

Submitted to the Dewan.

For Adm -

Petitions from certain Ryots holding lands under Nanjan Channel in Contributions.

The Circs under which holders of land below mentioned by the improvement & extension of the Nanjan channel were called upon to contribute towards the outlay on such improvements are fully explained in the Revenue Cir: No 6 dated 15th Oct 1886.

The general principles are also fully discussed & explained in Revenue Cir: No 1382-90 dated 1st Oct 1890.

As explained in these Circulars the Contributions are

partly due because the Lands Cannot produce anything unless they are irrigated. The Cultivation of the soil depends upon irrigation which depends upon the Channel. The Lands would remain unirrigated but irrigated partly also in consequence of the improvements in irrigation effected by the improvement of the Channel.

The Cultivation is also a part of the Enhancement in value of land & is a part of the Natural Value of the soil. The Cultivation has also increased & depends also upon improvement in value.

Asst to the Dewan
19/9/91

Rec'd 17 Feb 91

Memorandum

As directed by the Dewan in person, I beg to submit the following Memorandum on the subject of levying acreage contribution on the lands irrigated by the Kanjiyan Channel in the Nanjanad Taluk.

2. The length of the whole Channel is 32¾ miles and its capable of irrigating 7,269 acres. The first 10 miles of the Channel was formerly in existence and was irrigating 405 Kandies and 5 Kolagas of land. The extension and improvements to the Channel were com-
-menced in the year

1886-87, and the lands commanded by the first 10 miles were fully irrigated in 1888-89. Those under the second ten miles were first irrigated in 1889-90, and the lands under the remaining portion received water in 1890-91. The total area brought under cultivation up to the end of 1890-91 is 1,60 Kanals, assessed at Rs 14,236. During the current year about 350 Kanals has already been brought under wet cultivation. Thus the total area under cultivation is 1510 Kanals, assessed at Rs 13,336 in round numbers.

5. The Jodi villages were purchased by Government

	Rs
Previous balance	13067-4-4
1884-85	4385-4-4
1885-86	4385-4-4
1886-87	4516-4-4
1887-88	4462-4-4
1888-89	4462-4-4
1889-90	5037-4-4
1890-91	4236-4-4
Total	57,610-4-4

Collected	47,840-4-4
Recommended for remission	7470-4-4
Balance to be collected	299-4-4
Total	57,610-4-4

Arrears of the years previous to 1884-85	5000-4-4
for 1885-86	534-4-4
for 1887-88	653-4-4
for 1889-90	3478-4-4
Total	9665-4-4

on 1884-85. The total net demand including the previous balance up to end of 1890-91 was Rs 57,610 as detailed in the margin. Of this sum Rs 9,470 have been recommended for remission Rs 47,841 have been collected, leaving a small balance of Rupees 299 remaining to be collected.

4. The details of remissions are noted in the margin.

5. A statement showing the cultivation and Revenue under the channel after its extension, and another showing Revenue including previous years balance, and remissions granted are herewith submitted.

6. For the purpose of fixing contributions the survey measurement has been taken. As stated in para 2, the channel is calculated to irrigate 7269 acres. Of this 4256 acres have been brought under wet cultivation up to the end of 1890-91. Of the remainder of 3013 acres, 293 are unoccupied Government lands which are to be sold by auction and on which no contribution is levied. During the current year about 700 acres has been converted into wet which leaves about 2000 acres to be brought under wet cultivation. The rates of contribution fixed are Rs 30, 20 and 15 for

day, barges and such
boats respectively - It
has been decided in
Government Order No.
12466 — S — 722, dated 7th
February 1891 that the
holders of lands under the
first ten miles should
pay their contributions
in full during the year
1890-91, and those between
the 11th and 20th mile, half of
the amount in 1890-91,
and the other half in
1891-92 - Those in the last
section are to pay their
share in three yearly
instalments, viz 1/6 in 1890-91,
and another fourth in
1891-92, and half in 1892-93
The amount fixed up to
the end of 1890-91 is Rs 90,992
of which Rs 33,088-9-6 fall
due up to the end of the
said year - The latter figure

include full amount
due from land holders
in the first section and ½ d
¼ from those in the 2d &
3d sections respectively.
On the amount due,
only £2667-8-7 have
been collected up to date
without exercise measures.
When I was last in Navigund,
I made enquiries from
the Amildar and some
of the ryots. There were no
complaints except
from some of the ryots
of Kattigery, Hiranand
Doranur, who complained
that Bangar Lands in
their holding have been assigned
for the purpose of levying
contributions as dry and
dry rate, inspite of the fact
it demanded from them
I promised enquiry

into their complaints and ordered them to pay at once at Berger's cafe, which they consented to do - I now come to understand that the whole body of cyclists are quite willing to pay at the rate fixed - Some pleaders who mistook have set them up and are agitating the question. I have also learnt that they have collected a/ annas 4 per head to meet the expenses of printing petitions &c - The Chandler informed me that almost all the cyclists after their return from Nagpur have consented to pay the amount due from them -

7- As it's case should have been attached but

Sold in arrear - just a day or so previous to the date of sale, the arrears are being paid up. The marginally noted figures will show the number of cases posted for sale in each week in the current and next months. I am almost certain that in reward all pitiable cases, the amount will be paid before the date of sale. From which it is clear that the object of the writs is simply to gain a moderate as possible for making judgment to.

Pending 15th Sept. 91. } cases 35 - still pending up.
do 22nd do. — "
do 30th do. — 99
do 6th/91 — 40.
Total 172.

8. I had a talk with some of the writs. Still do not know what is the object of the present agitation - they are quite

3/

willing to pay up at the afforesaid rates.

9- Under these circumstances, I can confidently say that the application is set afoot by a few discontented landholders, and that there is no reason for showing any concession -

10- The rapid increase of wet cultivation and the willingness with the majority since to pay up, is a sure test of the measure being justified with the event.

11- Regarding the complaint of rejects about their Bengal lands being classed as dry & separate report will follow.
